

BENDTECH

Mechanical Three Roller Pipe Bending Machine

Categories	Three Roller Pipe Bending Machine
Brand	BendTech Engineers (Brand Name:- BTE)
Model	BTE-MTRPBM
Condition	New
Raw Material	Round Pipe, Square & Rectangular Pipe, Angle, C-Channel, T-Section, Flats
Material / Metal Processed	carbon steel, stainless steel, copper, aluminium, galvanized, etc.
Power	Electrical
Automation	Mechanical
After-sales Service Provided	Engineers available to service machinery overseas
Operation	By RF Switches
FOB port	Mundra Port(Gujarat) , Nahva sheva Port(Maharashtra)

Enquiry

The Product Single Cylinder Hydraulic Pipe Bending Machine specially developed product for whom having less number of production work with highly efficient and good quality bending Work. Machine is Robust in design with Degree Accuracy $\pm 1.5\%$.

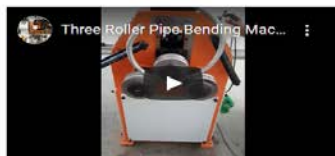

BTE- Three Roller Pipe Bending Machine made of welded and mechanized steel plates. Different from others, this one is not made of cast iron. Ideal for making flanges, greenhouses, balusters, tables, chairs, doors, windows. Making a great number of circular shapes in all kinds of profiles. Its robustness, axis diameter, reducer capacity and other features, make it one of the best bending machines in the market, within the category of **three traction rollers, which is an essential condition to work with pipes and obtain a perfect finish.**

- Processes mechanical transmission with compact form and high reliability & Low maintenance
- It can process different profiles like angle iron, flat iron, round pipe and other different section.
- Tie bar accessorized it increases shaft rigidity to ensure radius repeatability and accuracy, recommended for high well thickness and heavy duty profiles
- Roll set in nylon for tubes in aluminium, stainless steel and other light alloys
- It can produce profiles with large radius without making super size moulds
- This machine drives stably and can processing different round, arc and spire.
- Model with manual screw pressure
- Machine model available up to Pipe Size: 10 mm to 120 mm.

Features

- Impeccable functionality
- Superior service life.
- Commendable strength
- Easy to operate.

Sr. No.	Details	Specification	Specification	Specification
1	Model No.	BTE-1MSRBM	BTE-2MSRBM	BTE-3MSRBM
2	Pipe Size	Up to 25mm	Up to 50mm	Up to 75mm
3	Pipe Thickness	1 to 2 mm	1 to 3 mm	1 to 3 mm
4	Electrical Motor	2 Hp	3 Hp	5 Hp
5	Gear Box	Yes (Standard Make)	Yes (Standard Make)	Yes (Standard Make)
6	Bend Direction	Clockwise & Anticlockwise	Clockwise & Anticlockwise	Clockwise & Anticlockwise
7	Forward Reverse Operation	By Switch Operation	By Switch Operation	By Switch Operation
8	Side Guide Rollers For Pipe Support	Yes	Yes	Yes
9	Double Screw For Extra Support	No	No	Yes
